	- Educreations - Flipboard - TeacherKit+ - Udemy - Khan Academy - StickPick
Remembering: (mind-mapping, searching, tagging, describing, social networking)	- Articulation Station - Common Core Standards - Diigo - Educreations - Khan Academy - TeacherKit+ - Classdojo - Coursera - Duolingo - Flipboard - StickPick - Udemy

During the workshop, we will be discussing a series of iPad applications, specifically for Classroom Management & reaching English Language Learners. The Classroom Management Apps; promote positive behavior systems; reduce unwanted behaviors, and all while maximizing instruction time. The English Language Learner Apps enhance English Language Learner's listening, literacy, and speaking skills. The additional iPad resources foster professional development growth and skills. Then we will connect the applications to Bloom's Revised Taxonomy of Higher Thinking. Lastly, we will explore additional helpful iPad applications and resources. The applications to be covered are:

Classroom Management:
- **Educreations**
- **ClassDojo**
- **TeacherKit+**

English Language Learners:
- **StickPick**
- **Duolingo**
- **Articulation Stations**
- **Common Core Standards**

Additional Resources:
- **Flipboard**
- **Diigo**
- **Khan Academy**
- **Coursera**
- **Udemy**

HARNESSING THE
EDTECH ECOSYSTEM
[INNOVATE, BLEND, TRANSFORM, EMPOWER]

PROUDLY PRESENTED BY UNIVERSITY OF SAN FRANCISCO'S
GRADUATE SCHOOL OF EDUCATION & DTTL PROGRAM
ON 4.18.2015 FROM 8AM-12:30PM
